Introduction to AWS IAM

Task 1: Explore the Users and Groups

The screenshot shows the AWS IAM console interface. On the left is a navigation menu with sections like 'Access management' and 'Access reports'. The main content area displays the details for the 'EC2-Admin' user group. The 'Summary' section shows the user group name, creation time, and ARN. Below this, the 'Permissions policies' section shows one policy attached: 'EC2-Admin-Policy'.

EC2-Admin Info

Summary

User group name: EC2-Admin
Creation time: December 06, 2023, 23:19 (UTC-08:00)
ARN: arn:aws:iam:486425771090:group/spl66/EC2-Admin

Permissions policies (1) Info

You can attach up to 10 managed policies.

Policy name	Type	Attached entities
EC2-Admin-Policy	Customer inline	0

Task 2: Add Users to Groups

The screenshot shows the AWS IAM console interface. A green notification banner at the top states '1 user added to this group.' The main content area displays a list of user groups. The 'Users' column shows the number of users added to each group.

1 user added to this group.

User groups (3) Info

A user group is a collection of IAM users. Use groups to specify permissions for a collection of users.

Group name	Users	Permissions	Creation time
EC2-Admin	1	Defined	24 minutes ago
EC2-Support	1	Defined	24 minutes ago
S3-Support	1	Defined	24 minutes ago

Task 3: Sign-In and Test Users
